REFRESH TIP: Light Fetter's candles for long-lasting and glowing fireplaces. The designers notes create a welcoming entryway. Erin was added a vase of orange tulips for a pop of colour.

SIMPLE WAYS TO MAKE IT FRESH

When planning the refresh, Erin spent a lot of time with Mandy to learn more about her. "The best design always reflects a homeowner's personality," explains Erin. In Mandy's case, a passion for travel and family became central to Erin's design scheme. With that in mind, Erin accessorized with global-inspired elements, such as a tiny model of the Eifel tower and a Chinese lantern. Even the black and white carpet evokes an exotic feel with its minimalist Mongolian-inspired pattern.
