CONTENT CREATOR

CALOGERO AGRO

I'm a creative, based in Italy,
with the passion of
photography and traveling.

On my social media my goal
is to tell stories, share my
feelings and experiences.
I always try to work smarter
and to renovate my self: I'm
constantly looking for new
techniques and new original
ideas, I want my work to be
different and to stand out.

I create content and do
social promotion for
different brands (like tech
and lifestyle) and tourism
boards.

When working with brands I
show their entity with my
point of view and style, I
think it's the best way to
make people curious and
engaged.
