

# MELISSA B.

Speaker - Network Engineer - Music Artist - Actress - Brand Ambassador

## Bio

A #1 Billboard charted artist, speaker, and actress, Melissa B. is a senior network engineer by day and a powerhouse singer and actress by night. Her music is energetic and an international blend of the best of the "Gitty Glam". Independently she's accomplished over a half a million YouTube Hits, 5 million streams via Sound Cloud and has been considered for a Grammy Nomination 4 times. Currently serving as the brand ambassador for Valyou Xchange, which is the world's first decentralized global stock market for musicians, where fans invest and the music business connects. She's the founder of the organization "NYC Girl Geek Dinners", which has been sponsored by Google, Microsoft, and Thoughtworks. With years in both industries, she's gained a capacity for knowledge to change the music and tech industry as a whole! She helps young women today to get more inspired by computer science and technology in today industry.
