## A little about me

I am a social media influencer by day and by night. I work out of my home office and that is where all the magic happens; a space where I brainstorm ideas for new content to be created; a space where visions come alive. From finding the perfect location, to picking out the perfect pair of shoes, to wiping that excess lipstick off my teeth using photoshop - there are multiple layers to work my way through, in order to achieve exactly what I envision. Nothing makes me happier than creating content for my social media platforms and it is well reflected in my content. I believe it's safe to say that I am known for capturing happy-go-lucky content that instantly uplifts my audience's mood.
