

MY LIFE EXPERIENCE IN ENGLAND

EXCHANGE EXPERIENCE

I went one month to England, I stayed in the south of Sussex, Hastings.

As I love travelling, every weekend I went to explore different parts of the country, not only with the intention of knowing more places, but with the intention of knowing the essence of the real British heart.

I love England and so far, I think it is one of the greatest experiences that I've had.

In my Instagram profile you can see some of my trip pictures.

MY ART

MY EXPRESSION

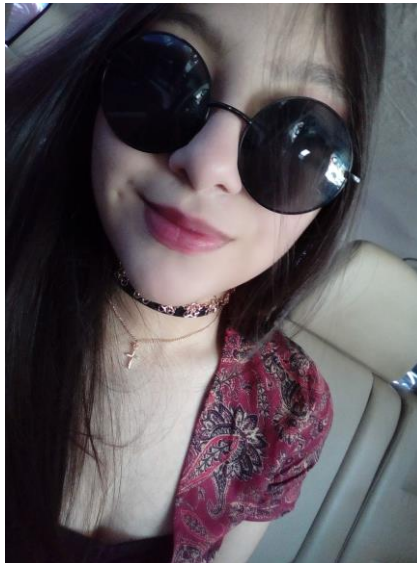

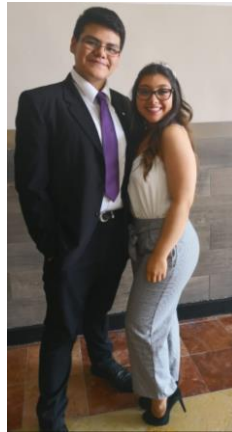

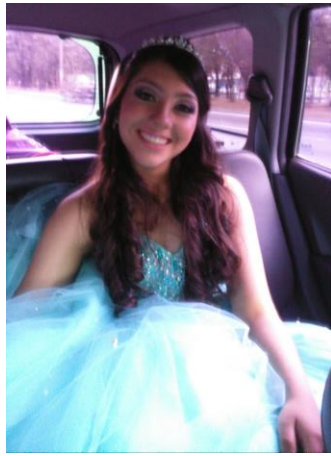

I love painting, and I define my self as an surrealistic-expressionist artist. I love how can you express so many things in a canvas.

I've a collection of 9 paintings about chaos. And some others that I've been making in different creative processes in my life.

My art express a lot of my perception of the world, and I like to be an interpreter of my own world.

FASHIONABLE ME

LOVE FASHION

I consider myself passionate person when it come to fashion. I love watching the new collections runways. I also love to be trendy and into the fashion world.

I'm a fashion expert. And I'll love to work in the fashion industry someday.
