

Jada Solo Dances

Jada Gossett

Hi there! I'm what you call an "adult skater," and there are a lot of us, but not nearly enough! Figure skating among other sports are marketed as only for kids, and it's my mission to prove that not only is this not the case, but **becoming an athlete as an adult has huge benefits.**

My platform is designed to be accessible for prospective adult skaters, current beginner and intermediate adult skaters, and adults who need an extra push to get them to follow their passions. I promote **positivity, self-encouragement, and accountability.** Brands who work with me are motivated to empower women and adults, ethical in practice, and stand up for what is just and right.
