We are native Angelenos living the LA dream. As identical twins, actors, and musicians, we have acquired health and wellness techniques, ranging from self-care, mental health to skin care routines and travel. Our passion is to authentically empower people to feel and look their best while taking care of themselves. We are each others' best friend and discovering and sharing a product we LOVE is our favorite thing to do!

When you work with us, two is better than one! You get more than just influencer connections and paid posts. We'll strategize with you to ensure we maximize the reach and engagement.

o With over 100k followers combined on Instagram, we have an authentic feel that's akin to sharing something new with your best friend!
