## ABOUT

I started my social growth and reviewer journey in 2015 as a creative outlet for me to express my love for all things technology, exploring and developing. I'm the kind of person who will simmer with excitement over tech I discovered online before I actually decide on getting it.

## SOCIAL STATISTICS

So I try to review tech innovations everyday people would find useful. These include but not limited to mobile apps, devices, useful websites, automobile as well as Technology trends. My aim is to make people aware of the tech they love and use on a daily basis.

**"A strong, positive self-image is the best possible preparation for success. "**
