# About Carvin Walls

Carvin Walls is a husband/wife country music duo based in Nashville, TN. Kelly (formally Carvin) Walls and Troy Walls are a powerhouse duo that could only be created in the heart of Music City. Kelly is a sassy, fun Jersey girl who performed professionally in the New Jersey tri-state area as a pop/rock, hippie singer/songwriter.

Troy Walls is a down to earth country boy from West Virginia who was playing the Ohio river valley while making regular trips to Nashville for songwriting. The two officially made the move to Nashville, TN in 2012 and they met shortly after at a songwriters round. Once they started writing together, the magic between them happened instantly! They began to play songwriter rounds together, and soon officially became the duo everyone was talking about.

They say opposites attract; Kelly and Troy are vastly different, but the way they compliment each other continues to entice their rapidly growing fan base. Kelly, raised in New Jersey on rock n' roll and pop, and Troy, raised in West Virginia on traditional country, they combine their styles into an oddly perfect combination.

# About Carvin Walls, Con't

Both love the craft of songwriting, the sounds of motown, and R&B so they continue to create their own fun and clever version of country music.

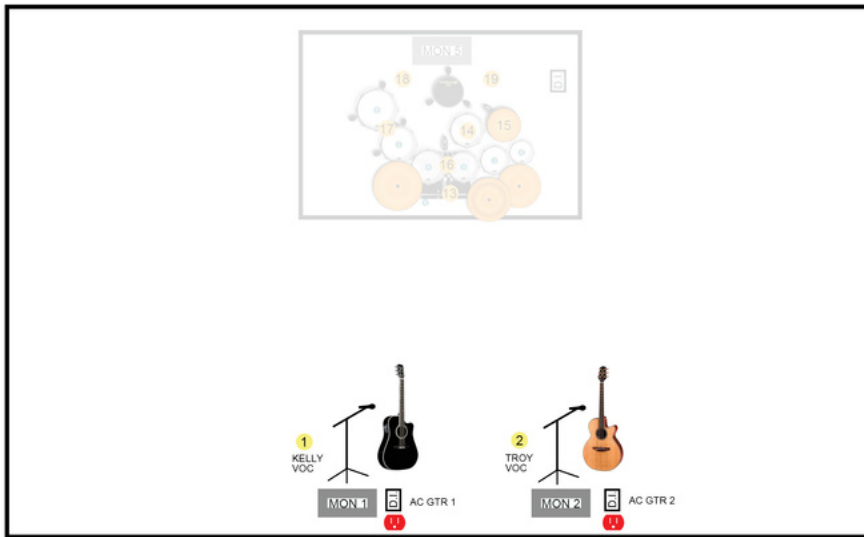

Their debut 2019 album "Between Us" debuted at #59 on iTunes Country Album charts and has been reaching fans across the country, with tons of requests on radio and a huge outpour of love and support. It has just the right mix of fun and real for fans to latch on to.

Carvin Walls was nominated for the 2019 NIMA Awards for "Duo of the Year" and "Performers of the year"! Their single "Sometimes I Lie" reached top 100 and "Hippie" top 80 for 6 weeks on Music Row Charts. Kelly and Troy released "3 in the Morning" in April of 2021 with a heartfelt music video featuring baby footage from fans and their own home movies. The song was a success on TikTok, where many parents showed their "journey to parenthood" with their song. The couple has since been back on the road as well as releasing more music. Having recently gone viral on TikTok with their heart-wrenching original song "Lucky Enough" written about the loss of Kelly's sister, the duo is showing no signs of slowing down.
