

Gravel Bike Adventures

Gravel Bike Adventures believes that it is vitally important to include women's voices in the gravel biking industry. Our goal is to encourage people (especially women and members of the LGBTQ+ community) to explore the power of the outdoors through venturing onto dirt roads. Our interactive website provides routes, downloadable maps, advice and other resources. The tools on the website help to build community by giving cyclists the confidence to see what is possible, get inspired, spark conversation and ultimately plan their own adventures.
