Maintain these Cons in Your Mind:

THE SCIENCE BEHIND BETTER, LONGER & MORE INTENSE SEX!

The blood flow to the penis is responsible for erections, while the holding capacity of the penis chambers is what influences sexual stamina and staying power. **Stymphdxfirol™** helps boost both, so you and your partner enjoy intense orgasms and complete satisfaction.

Stymphdxfirol's™ pro-sexual nutrient blend is quickly absorbed into the bloodstream to stimulate Nitric Oxide production - this in turn boosts the flow of blood to the penile chambers helping you enjoy harder and stronger erections. On the other hand it also expands the penis chambers allowing it to hold more blood in order to drastically increase sexual stamina, strength and staying power.

Stymphdxfirol™ utilizes a breakthrough rapid absorption and extended release technology. Rapid absorption of the ingredients into the bloodstream aid in delivering instant surge of sexual power while the extended release technology delivers sustained results that help you enjoy on command erections and stamina to last all night long.

STYPHDXFIROL WORKS BY TRIGGERING THE TWO MECHANISMS KNOWN TO INCREASE PENIS SIZE, FUNCTION AND PERFORMANCE. THESE ARE:

- 1 AN INCREASE IN "FREE" TESTOSTERONE AND
- 2 NITRIC OXIDE PRODUCTION TO THE PENIS.

Stymphdxfirol™ is the only product that does both. **Stymphdxfirol™** contains the most potent nitric oxide stimulators which maximize the delivery of the active ingredients to your penile tissue giving you firmer, longer erections.
