## ABOUT ME

---

I am just a typical millennial that love different fandoms! When I was in high school, my school got invited to perform at different theme parks and my love for my favorite fandoms just grew! Pop culture fandom and dancing is something that feeds my soul and what I love to share with others! I have made many friends and memories from both and can't wait to continue to grow with it.

## STORY OF MY BRAND

---

Worldofdomdom was created to add representation to the Pop culture fandom community as well as creating a safe space to share your passions like I share my love for dancing! I also use Worldofdomdom as a creative outlook for fandom fashion! Using my #blackgirlmagic, I create style and dance reels to fit your fandom needs. Whether as a Disney princess, a young padawan, a Slytherin witch or your favorite Marvel character.
